US Application No. 10/554,380 (US 7,449,276).

Principal Arguments and Other Matters

The Examiner alleged that a rejection of the pending method claims (1, 6-9 and 12-20) under 35 U.S.C. § 102(f) would be made over US 10/554,380, and suggested canceling the composition claims, and allowing the method claims to issue.

Results of Interview
